After completing the Safe Schools Assessment Checklist, examining the survey data with your team, and reviewing other sources of information consider some of the following questions to help guide discussion and move you towards developing and selecting your school goal(s).

1. In what ways is Safe Schools imbedded into your school's curricular programs? Are programs evidence based and age appropriate? Do gaps by grade or subject area exist?
2. Do staff know and consistently apply policies and procedures in line with Ministry of Education requirements? What type of ongoing training is available?
3. Do all stakeholders feel welcome and involved in your school and its activities? What gaps, if any, are evident?
4. Overall, is there sustainability to Safe Schools initiatives/ programs? Consider the number of "one off" programs versus continuous initiatives / programs. What programs appear to have buy-in and are showing success? Which programs need to be reviewed?
5. What is the anonymous reporting system at your school? Do you feel this method is working well for your students? What evidence do you have to support this?
6. In what ways are stakeholders involved in the plan's development, implementation and review of outcomes?
